

milk powder dispenser

INSTRUCTIONS FOR USE

HOW TO USE

1 Fill feeding bottle with freshly boiled and cooled water (following formula manufacturers' instructions).

2 Ensure pot is completely dry before filling. Fill pot with required amount of milk formula (following formula manufacturers' instructions) and tap on surface to settle contents.

3 Snap on funnel and lid and drop inside bottle.

4 Screw on teat and teat hood as normal. At feeding time, unscrew teat and teat hood and lift out dispenser.

5 Remove dispenser lid and tip contents into bottle, tapping funnel on sides to ensure all formula is released.

6 Screw on teat and teat hood. Shake well and serve.

SAFETY GUIDANCE

For your child's safety and health

WARNING!

- Always use this product with adult supervision.
- Before first use, clean the product.
- Always check food temperature before feeding.
- Accidents have occurred when babies have been left alone with drinking equipment due to the baby falling or if the product has disassembled.
- Before each use, wash thoroughly and sterilise, ensuring dispenser is completely dry.
- Before each use, inspect the product and throw away at the first sign of damage or weakness.
- To avoid leakage, ensure bottle stays upright until liquid is at correct feeding temperature.
- Heating in a microwave oven may produce localised high temperatures.
- Take extra care when microwave heating. Always stir heated food to ensure even heat distribution and test the temperature before serving.
- **Do not clean or allow to come into contact with solvents or harsh chemicals. Do not store in direct sunlight or near a source of heat. Damage could result.**
- Suitable for all forms of sterilisation by electric, microwave, boiling or cold water tablet/ liquid solution.
- Wash in warm soapy water and rinse in clean water or use a dishwasher.
- **Do not allow product to come into contact with oil based foods (e.g. oil/tomato based sauces) as staining will occur.**
- **Keep all components not in use out of reach of children.**
